Tools:

Location	FMAP Percentage	Multiplier
United States ¹	50.00%	1.00
Alabama	73.12%	2.72
Alaska	50.01%	1.00
Arizona	66.29%	1.97
Arkansas	72.00%	2.57
California	50.00%	1.00
Colorado	50.00%	1.00
Connecticut	50.00%	1.00
Delaware	59.71%	1.48
District of Columbia	70.00%	2.33
Florida	57.96%	1.38
Georgia	65.89%	1.93
Hawaii	58.56%	1.41
Idaho	69.72%	2.30
Illinois	51.09%	1.04
Indiana	65.62%	1.91
Iowa	64.13%	1.79
Kansas	60.97%	1.56

NOTES

Notes

The amount of Federal payments to a State for medical services depends on two factors. The first is the actual amount spent that qualifies as matchable under Medicaid and the FMAP. The **Federal Medical Assistance Percentage (FMAP)** is computed from a formula that takes into account the average per capita income for each State relative to the national average. By law, the FMAP cannot be less than 50%. For more information, please see the KFF policy brief [Medicaid Financing: An Overview of the Federal Medicaid Matching Rate \(FMAP\)](#), September 2012.

The **multiplier** is based on the FMAP. For every dollar the state spends on Medicaid, the federal government matches at a rate that varies year to year. For FY2004, the rate for Alabama was 1:2.80 (73.70%). For information about the multiplier effect of Medicaid spending, see The Kaiser Commission on Medicaid's policy brief released in December 2008, [Role of Medicaid in State Economies: A Look at the Research](#).

The Families First Coronavirus Response Act authorized a temporary increase of 7 percentage points to states'

matches at a rate that varies year to year. For FY2004, the rate for Alabama was 1:2.80 (73.70%). For information about the multiplier effect of Medicaid spending, see The Kaiser Commission on Medicaid's policy brief released in December 2008, [Role of Medicaid in State Economies: A Look at the Research](#).

The Families First Coronavirus Response Act authorized a temporary increase of 6.2 percentage points to states' FMAP in exchange for meeting specific Medicaid program requirements. This FMAP increase became available January 1, 2020, the first day of the calendar year quarter in which the Secretary of the U.S. Department of Health and Human Services (HHS) declared a COVID-19 public health emergency. As provided by the Consolidated Appropriations Act, the increased support will phase down starting on April 1, 2023. The percentage point increase will then be reduced to 5.0 as of April 1, 2023; 2.5 as of July 1, 2023; and 1.5 as of October 1, 2023. It will end entirely as of January 1, 2024.

The FMAPs reported on this table do not reflect the enhanced FMAP rates available to states through the end of December 2023.

The amount of Federal payments to a State for medical services depends on two factors. The first is the actual amount spent that qualifies as matchable under Medicaid and the FMAP. The **Federal Medical Assistance Percentage (FMAP)** is computed from a formula that takes into account the average per capita income for each State relative to the national average. By law, the FMAP cannot be less than 50%. For more information, please see the KFF policy brief [Medicaid Financing: An Overview of the Federal Medicaid Matching Rate \(FMAP\)](#), September 2012.

The **multiplier** is based on the FMAP. For every dollar the state spends on Medicaid, the federal government matches at a rate that varies year to year. KFF estimates of increased FY 2024 FMAPs and the multiplier based on [Federal Register, December 5, 2022 \(Vol 87, No. 232\), pp 74429-74432](#).

KCMU estimates of the multiplier are based on the FMAP.

Definitions

Federal Fiscal Year: FMAPs displayed here apply to the federal fiscal year indicated unless otherwise noted, which runs from October 1 through September 30. For example, FY 2022 refers to the period from October 1, 2021 through September 30, 2022.

FOOTNOTES

1. US federal minimum FMAP is 50%.

2. For purposes of Section 1118 of the Social Security Act, the percentage used under Titles I, X, XIV, and XVI and Part A of Title IV will be 75%.
